## PVC AND FRP CENTRIFUGAL FANS

**VCB-1100 SERIES**

**VIRON® INTERNATIONAL** is a leading manufacturer of corrosion resistant PVC and FIBERGLASS fans. Our manufacturing facilities in Michigan and Texas operate the most modern equipment and efficient manpower found in the fan industry. Our PVC and FIBERGLASS Centrifugal Fans are produced in 20 standard sizes with wheel diameters ranging from 12" to 80", allowing our fans to produce volumes from 400 to 150,000 CFM

### **STANDARD DESIGN PARAMETERS:**

1. High Efficiency
2. Easy Maintenance
3. Minimum Operating Cost
4. Structural Integrity

**VIRON® INTERNATIONAL** certifies that the VCB-1100 Series PVC and FRP Centrifugal Fans shown herein are licensed to bear the AMCA seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and comply with the requirements of the AMCA Ratings Program.

# SPECIFICATIONS

---

## PVC GENERAL SPECIFICATIONS

- Corrosion resistant PVC sheet with flame retardant additives will reduce the flame spread rating to below 25. This material is then rated for Class 1 flame spread.
- All structural parts in the airstream are PVC.
- All internal hardware is stainless steel.
- The fan housing is solid PVC sheet using premium grade corrosion resistant material.
- The fan wheel is solid fiberglass using a premium grade corrosion resistant resin. The backward incline wheel design offers efficient, low cost handling of industrial process air or gas. As an option **VIRON**<sup>®</sup> can manufacture a steel wheel with a PVC coating. The coating thickness will vary from 40 to 100 MILS depending upon the application.
- Maximum temperature limitation is 140°F on all PVC fans.

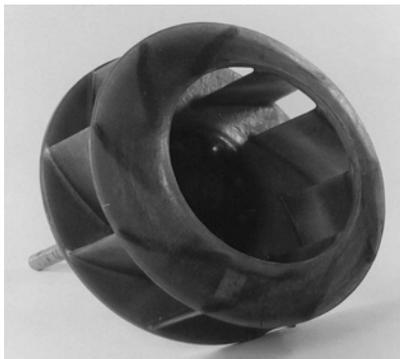

## FRP GENERAL SPECIFICATIONS

- Corrosion resistant polyester resin with flame retardant additives will reduce the flame spread ratings to below 25.
- All structural parts in the airstream are fiberglass and resin.
- All internal hardware is stainless steel.
- The fan housing is solid fiberglass using premium grade corrosion resistant material.
- The fan wheel is solid fiberglass using a premium grade corrosion resistant resin. The backward incline wheel design offers efficient, low cost handling of industrial process air or gas.
- Maximum temperature limitation is 200°F on all fiberglass fans.
- Special high corrosion construction is optional on all **VIRON**<sup>®</sup> fiberglass air moving equipment.

---

## PVC AND FRP STANDARD SPECIFICATIONS

- **Size** - 12" to 80" diameter wheel, 20 convenient sizes to choose from giving you 400 to over 150,000 CFM.
- **Motor** - All motors are TEFC.
- **Belts** - All belts are industrial grade V-belt type.
- **Bearings** - All bearings are heavy duty, self aligning, ball bearing type.
- **Drain** - All fan housings have 1" drain at the lowest point of the housing.
- **Hardware** - All hardware is stainless steel.
- **Wheel** - All fan wheels are dynamically balanced.
- **Pedestal Base** - All pedestal bases are constructed of heavy gauge steel. The trapezoid design insures smooth performance and structural integrity. An epoxy protective coating is applied to all bases.

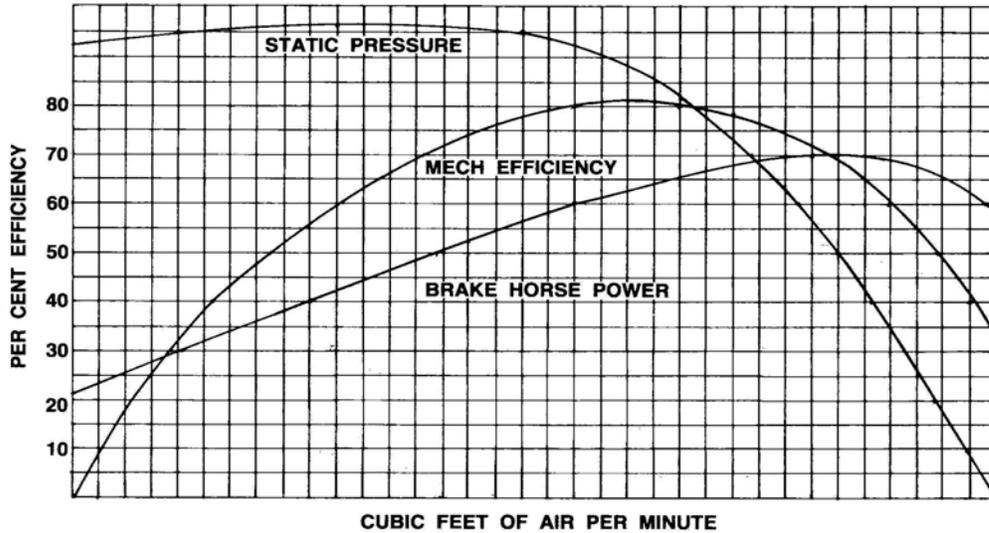

---

## FRP BACKWARD INCLINE WHEEL

The fan wheel is solid fiberglass using a premium grade corrosion resistant resin. This design offers our customers one of the highest efficiencies and quietest operation of any fan wheel manufactured. This wheel has a non-overloading characteristic, and has been proven to save horsepower over the entire volume range.

# PERFORMANCE AT OTHER THAN STANDARD CONDITIONS

Any particular fan, operating at a constant speed on a fixed system when there is no internal heat exchange involved, will deliver the same volume of air but the static pressure and brake horsepower will vary with the density. The capacity tables in this catalog are based on the fan handling standard air at a density of .075 lbs. per cubic foot corresponding to 70°F, and 29.92" Hg. Barometric Pressure. Therefore, when the fan handles air or other gases at other than standard densities due to temperature, altitude, or the kind of gas, the published tables should be used in the following manner:

## General Method

**Step 1** Compute the equivalent static pressure in the following manner:

$$\text{Equivalent SP} = \text{Required SP} \times \frac{0.75}{\text{Actual Density}}$$

When both temperature and altitude vary from standard.

$$\text{Actual Density} = \frac{\text{Density at temp.} \times \text{density at alt.}}{.075}$$

(See chart below)

**Step 2** Using the required CFM and the equivalent SP, obtain the RPM and BHP from the standard capacity table, interpolating when necessary.

**Step 3** The RPM obtained is the correct value. The BHP obtained must be corrected for the actual density as follows:

$$\text{BHP (from table)} \times \frac{\text{Actual Density}}{.075}$$

## Example

To compute the changes in RPM and BHP on a VCB-1140 fan from 17,733 CFM, 1½" s.p. at sea level to operating a fan with 250°F air at 5000' altitude follow steps 1 through 3.

**Step 1** Equivalent SP = 1.5 X  $\frac{.075}{.0465} = 2.42"$

$$\text{Actual Density} = \frac{.056 \times .0623}{0.075} = .0465$$

Where .056 is read from temperature curve and .0623 from altitude curve.

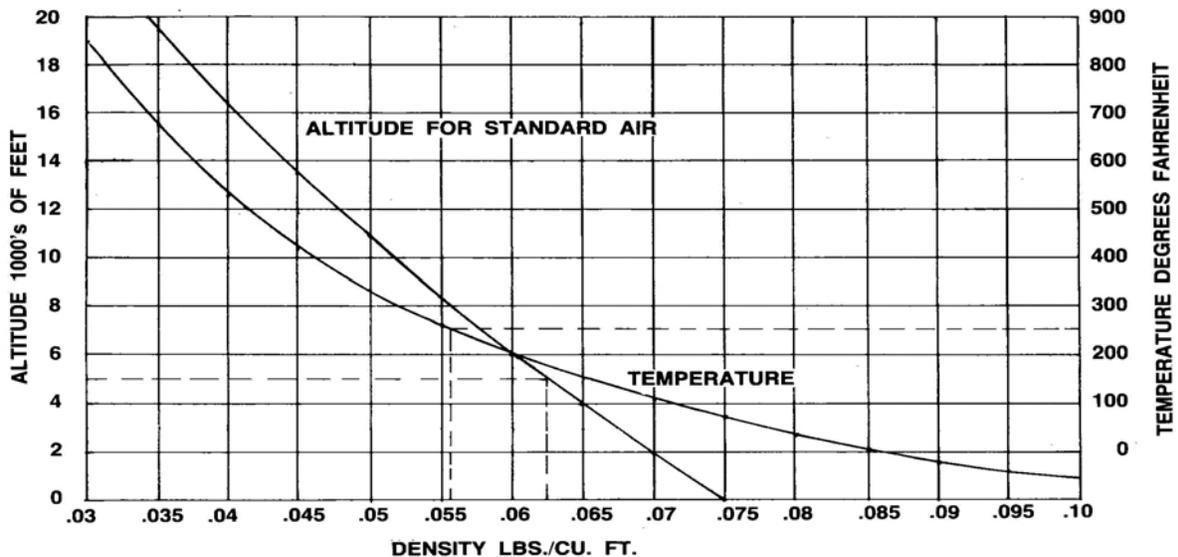

(See chart below)

**Step 2** From capacity table on page 22, by interpolation:  
RPM = 722  
BHP = 9.27

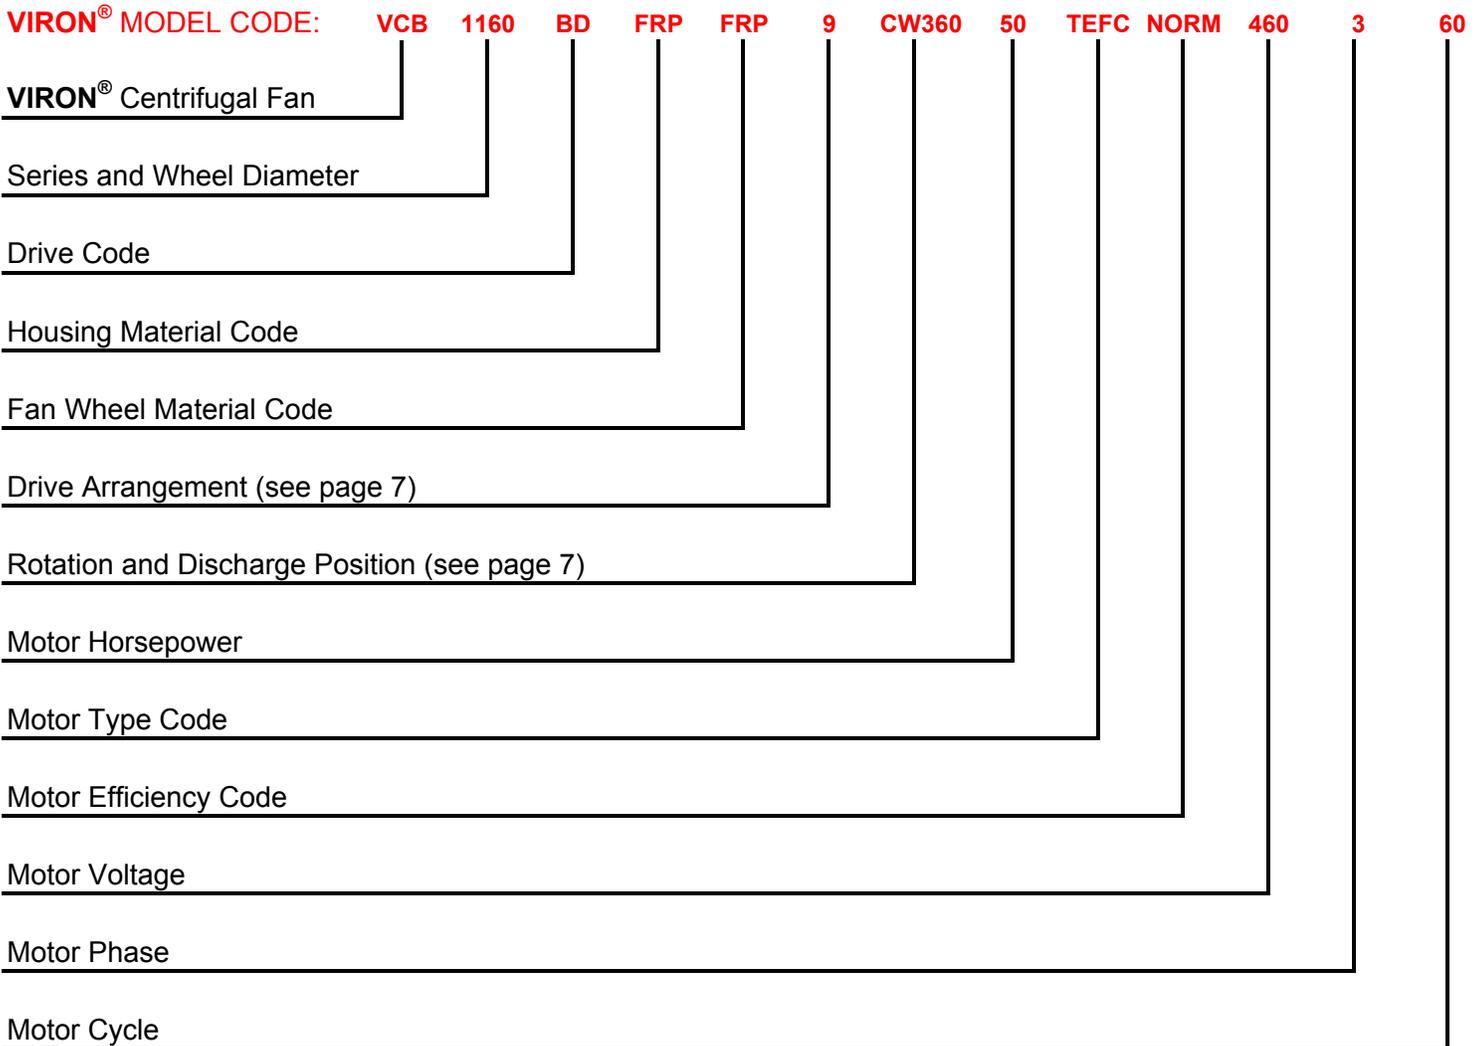

**Step 3** Actual RPM required = 722

$$\text{Actual BHP} = 9.27 \times \frac{.0465}{0.75} = 5.75$$

Correct performance is: 17,733 CFM, 1½ SP, 722 RPM, 5.75 BHP, when handling air at 250°F., and 5000' elevation.

# SELECTION GUIDE

## HOUSING MATERIAL CODE

Fiberglass	FRP
Polyvinyl Chloride	PVC
Polypropylene	PP

## MOTOR TYPE CODE

Totally Enclosed Fan Cooled	TEFC
Open Drip Proof	OPEN
Explosion Proof	EXPL
Chemical Duty	CHEM

## FAN WHEEL MATERIAL CODE

Fiberglass	FRP
Steel With Polyvinyl Chloride Coated	PVC
Steel With Kynar Coated	KYN
Stainless Steel	SST

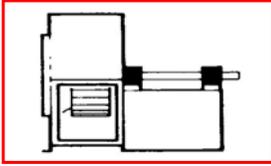

## MOTOR EFFICIENCY CODE

Normal Efficiency	NORM
High Efficiency	HIGH

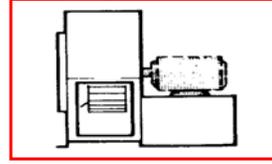

## DRIVE CODE

Direct Drive	DD
Belt Drive	BD

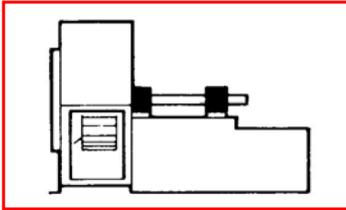

## DRIVE ARRANGEMENTS FOR CENTRIFUGAL FANS

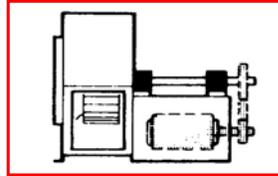

**ARR.1 SWSI.** For belt drive or direct connection. Impellor overhung. Two bearings on base.

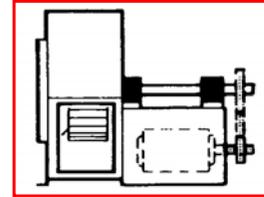

**ARR. 4 SWSI.** For direct drive. Impellor overhung on prime mover shaft. No bearings on fan. Prime mover base mounted or integrally directly connected.

**ARR. 8 SWSI.** For belt drive or direct connection. Arrangement 1 plus extended base for prime mover.

**ARR. 9 SWSI.** For belt drive, impellor overhung, two bearings, with prime mover outside base.

**ARR. 10 SWSI.** For belt drive, impellor overhung, two bearings, with prime mover inside base.

### NOTES:

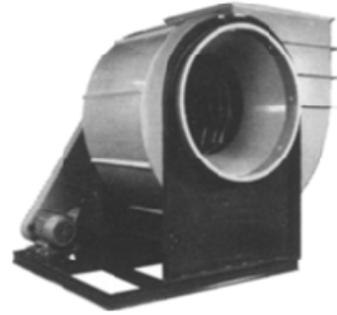

1. Direction of rotation is determined from drive side of fan.
2. On single inlet fans, drive side is always considered as the side opposite fan inlet.

# FAN ACCESSORIES

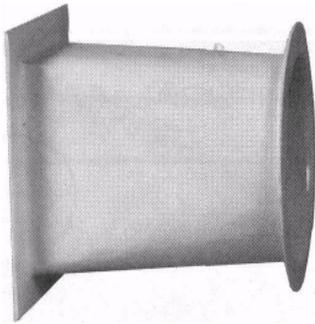

## PARALLEL BLADE OUTLET DAMPER

The **VIRON**<sup>®</sup> Parallel Blade Outlet Damper is fabricated from Fiberglass Reinforced Plastic (FRP). It is designed to control the volume of corrosive fumes exiting the VCB Series fans. The linkage is placed outside the airstream for easy maintenance and long life.

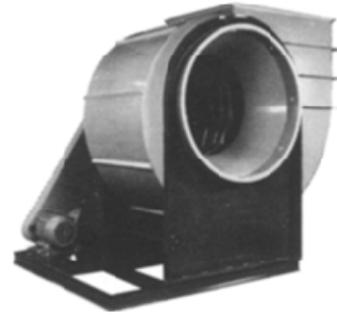

## COMMON STEEL BASE

All **VIRON**<sup>®</sup> VCB Series fans come standard with Common Steel Bases. This adds structural rigidity and helps distribute the weight on a more even basis. When you need to mount the fan from the Common Steel Base, the factory can supply a heavier frame to accommodate any design criteria.

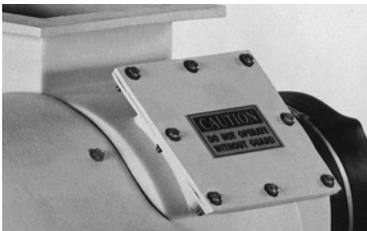

## OUTLET TRANSITION

In many instances the installing contractor may want to put a stack off the fan outlet. **VIRON**<sup>®</sup> can manufacture a standard Outlet Transition to accommodate the rectangular fan outlet to a round duct stack.

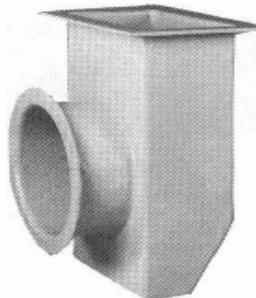

## FLANGED INLET

A permanent bonded inlet flange is available for use by the installing contractor to mount an Inlet Duct or Inlet Plenum Box so a portion of the duct can be removable for future maintenance.

## BOLTED CLEANOUT DOOR

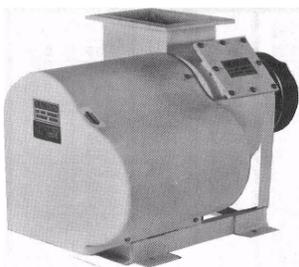

In order to properly maintain your fan you must visually inspect the fan wheel on a monthly basis, to do this **VIRON** offers a Bolted Cleanout Door. The Bolted Cleanout Door is fabricated into the rounded portion of the fan scroll. This allows your maintenance personnel to get the closest view of the fan wheel. Standard hardware is type 304 stainless steel with PVC closed cell gasket material.

## INLET PLENUM BOX

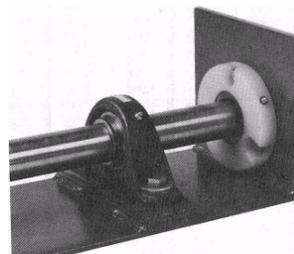

When there is not room to adequately design the inlet duct to a fan, **VIRON**<sup>®</sup> offers an Inlet Plenum Box. This Fiberglass Reinforced Plastic (FRP) fabricated box can be mounted to accommodate a duct coming from any direction, and still minimize the pressure loss associated with tight design parameters.

# FAN ACCESSORIES

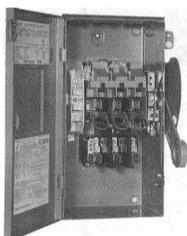

## WEATHER COVER

All VCB Series Fans can be shipped with a complete weather cover. This weather cover protects the shaft, bearings, sheaves, drives, belts, and motors. It is available in all sizes.

## VITON SHAFT SEAL

In certain applications, it is important to keep fumes from escaping through the interface area of the shaft and the fan housing. By utilizing this positive shaft seal, you can keep fumes contained and away from your bearings which help operate your fan.

## ELECTRICAL DISCONNECT SWITCH

Frequently fans are installed at remote locations. When this happens, **VIRON**® can mount an Electrical Disconnect Switch to the fan. This safety device can help insure your workers safety when periodic maintenance is required.

## VIBRATION ISOLATION

A variety of different Vibration Isolation products are available for your **VIRON**® VCB Series Fans. The list of products can range from neoprene pads to 4" spring isolators with seismic restraints.

# VCB-1140

Wheel Diameter  
40-1/4" Ø I. D.

INLET 42-1/4" Ø I.D.  
OUTLET 32" x 42" I.D.

Area 9.74 Sq. Ft.  
Area 9.33 Sq. Ft.

Tip Speed = RPM X 10.54  
Max BHP = 30.42  $\frac{\text{RPM}^3}{1000}$

- **LIMITED WARRANTY**

VIRON<sup>®</sup> INTERNATIONAL warrants to the dealers and owners its VIRON<sup>®</sup> products and parts to be free from defects in workmanship and material under normal use and services for one (1) year after the date of shipment by VIRON to the first retail purchaser or first user: if and only if VIRON<sup>®</sup> is notified in writing of the defect within fourteen (14) days from date that the defect is discovered. Written notice of defects discovered within the final fourteen (14) days of the warranty period must be sent to VIRON<sup>®</sup> via facsimile or first class mail prior to the expiration of the warranty period otherwise this warranty shall be void. Our obligation under this warranty is expressly limited to repairing or replacing at our option, without cost at our factory any part or parts thereof which shall be returned to and received by VIRON<sup>®</sup> within such warranty period with transportation charges both to and from VIRON<sup>®</sup> prepaid, and which our examination shall disclose to our satisfaction to have been defective. In the event a defect is discovered within the final seven days of the warranty period, the returned goods must be received by VIRON<sup>®</sup> at VIRON<sup>®</sup>'s facility within seven days following expiration of the warranty period. Any request for repair or replacement should be directed to VIRON<sup>®</sup> INTERNATIONAL, Owosso, MI.

If examined equipment is found not to be defective or for some other reason not to be within the warranty coverage, seller's service time expended on and off location will be charged to the purchaser. This warranty gives you specific legal rights which vary from state to state. **FAILURE TO PAY THE INVOICE IN FULL WILL RESULT IN VOIDING ANY AND ALL WARRANTIES.**

- **LIMITATION OF WARRANTY AND LIABILITY**

This warranty does not apply to such VIRON<sup>®</sup> products and parts which in the sole judgment of VIRON<sup>®</sup> have failed as a result of faulty installation or abuse, or incorrect electrical connections or alterations, made by others, or use under abnormal operating conditions or misapplication of products and parts.

This warranty does not apply to damage resulting from shipment or storage of VIRON<sup>®</sup> products. Purchaser acknowledges that VIRON<sup>®</sup> products contain rotating parts that may be damaged by the forces of nature if not installed or put to their intended use within seven (7) days of delivery. **THIS WARRANTY DOES NOT COVER COMPONENT PARTS THAT CARRY A SEPARATE WARRANTY FROM THE MANUFACTURER OF THE COMPONENT PART.**

VIRON<sup>®</sup> will not approve for payment any repair made outside its factory without prior written consent of its Owosso, Michigan office. The foregoing shall constitute our sole and exclusive warranty and our sole and exclusive liability and is in lieu of all other warranties, whether written, oral, implied or statutory.

**THERE ARE NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION ON THE PAGE HEREOF. SELLER DOES NOT WARRANT MERCHANTABILITY THAT SAID GOODS AND ARTICLES ARE OF MERCHANTABILITY QUALITY, OR THAT THEY ARE FIT FOR ANY PARTICULAR PURPOSE.**

The liability of any seller on any claim of any kind, including contract, warranty, tort, or negligence, for any loss or damage arising out of or connected with or resulting from the sale and purchase of products and parts covered by any VIRON<sup>®</sup> proposal, acknowledgement, order, or from the performance or breach of any contract pertaining to such sale or purchase, or from the design, manufacture, sale, delivery, resale, installation, technical direction in installation, inspection, repair, operation or use of any products or parts covered by any VIRON<sup>®</sup> proposal, acknowledgement, order or furnished by seller, shall in no case exceed the price as paid by purchaser allocable to the products or parts thereof which give rise to the claim and shall terminate one year after shipment of said products and parts.

**IN NO EVENT, WHETHER AS A RESULT OF BREACH OF CONTRACT, OR WARRANTY, OR TORT, OR ALLEGED NEGLIGENCE, DEFECTS, INCORRECT ADVICE OR OTHER CAUSES, SHALL SELLER BE LIABLE FOR SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES, including but not limited to loss of profits or revenue, loss of use of the equipment or any associated equipment, cost of removal or reinstallation or any cost associated therewith, cost capital, cost of substitute equipment, facilities or services, down time cost, or claims of customers of the purchase of such damages.**

VIRON<sup>®</sup> neither assumes nor authorizes any person to assume for it any other liability in connection with the sale of its products and parts. Some states do not allow the exclusion or limitation of incidental or consequential damages, so all of the above limitations or exclusions may not apply to you.
