Introduction
CSBM is a belt Drive Centrifugal cabinet fan specially designed for commercial / industrial building ventilation, it provides large air volume at high static pressure with low operating noise.

Range
CSBM500
CSBM560
CSBM710

Features
- It generates large air volume at high static with low operating noise
- Belt driven function provides widest selection to suit all types of ventilation requirement

Specification
Impeller
- Type : 1) Backward curve, DIDW
- Material : Steel with anti corrosion paint

Motor
- TEFC induction motor
- IP : 55

Casing
- Frame : Aluminium
- Panel : GI sheet

Performance certified is for installation type B - Free inlet, Ducted outlet. Power rating (kW) does not include transmission losses. Performance ratings do not include the effects of appurtenances (accessories). The A-weighted sound ratings shown have been calculated per AMCA International Standard 351. Values shown are for Inlet LeqA sound power levels for Installation Type B: Free inlet, ducted outlet.
