DM CONSTRUCTION FEATURES

(Shown with Optional Series F200A Filter Section)

Acme certifies that the DM Series Duct Blower shown hereon is licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in conjunction with AMCA Publication 211 and Publication 311 and comply with the requirements of the AMCA Certified Ratings Program.

ACME DUCTMASTER™ SINGLE & TWIN DUCT BLOWERS DM SERIES

FOR INDOOR USE ONLY

An all-purpose CABINET BLOWER with a compact optional FILTER SECTION.

Widely used in conjunction with HEATING, COOLING and VENTILATING systems.

An economical, quiet and efficient solution for many air moving requirements.

Available with 7", 9", 10", 12", 15" and 18" blower.

CONSTRUCTION FEATURES

- Blower is equipped with ball bearings which have an operating temperature range of -65° to +250°F.
- 9/16" mounting holes are provided in the top of cabinet for support rods when unit is suspended overhead.
- Hook bolt motor mounting allows 7" through 12" models, single and twin units, to be used in the up-flow, down-flow and horizontal flow discharge positions.
- Heavy duty motor mounting brackets with motor adjusting bolt and rubber bumper is supplied on 15" and 18" models. Suitable for horizontal position only.
- Access panels on both sides allow easy servicing to blower and motor.
- Keywayed shafts are standard on both ends.

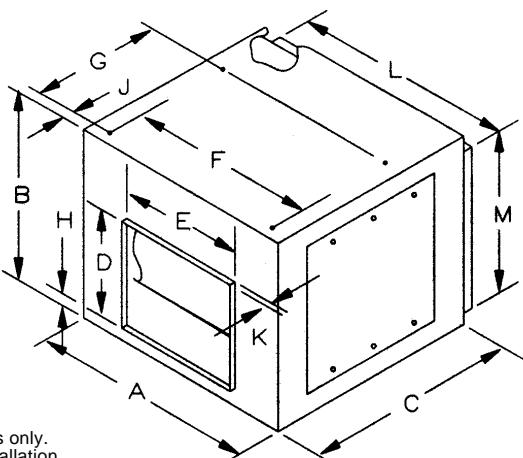

- Blower is rubber mounted for quiet operation.

- Twin Duct Blowers are tied together with steel angle runners. Twin blowers are on a common shaft and driven from either end.

OPTIONAL ACCESSORIES

- SERIES HC HOT WATER HEATING COILS attach to blower inlet. Two row aluminum fin copper tube with sloped drain pan for positive condensate removal.
- SERIES CW CHILLED WATER COOLING COILS attach to blower inlet. Four row aluminum fin copper tube with sloped drain pan for positive condensate removal.
- SERIES F200A FILTER SECTIONS are insulated and supplied with 1" framed aluminum mesh filter. All filter racks will accommodate either 1" or 2" filter. Easily removed for servicing through end access panel.

DMS CONSTRUCTION FEATURES

ACME DUCTMASTER™ SINGLE & TWIN DUCT BLOWERS DMS SERIES

WEATHER-RESISTANT INSULATED CABINET FOR INDOOR AND OUTDOOR

An all-purpose CABINET BLOWER with a compact optional FILTER SECTION.

Widely used in conjunction with HEATING, COOLING and VENTILATING systems.

An economical, quiet and efficient solution for many air moving requirements.

Available with 9", 10", 12", 15", 18" and 20" blower.

Acme certifies that the DMS Series Duct Blower shown hereon is licensed to bear the AMCA Seal. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and Publication 311 and comply with the requirements of the AMCA Certified Ratings Program.

CONSTRUCTION FEATURES

- Twin duct blowers are tied together with steel angle runners. Twin blowers are on a common shaft and driven from either end.
- Keywayed shafts are standard on both ends.
- Motor mounting hardware as required:
 - motor mounting brackets and adjusting hardware for sizes 9" and 10".
 - Base mount motor plate for sizes 12" and 15".
 - Motor platform for size 18" and 20".
 - specify 1-15 HP or 20-50 HP motor platform for size 20".
- Spider bearing bracket for sizes 9" through 15".
- Pillow block bearings for sizes 18" and 20".

- Blower is firmly mounted on 2 steel reinforcing channels which contain mounting holes for support rods when unit is suspended overhead.

- Blower is equipped with ball bearings which have an operating temperature range of -65° to +250°F.

OPTIONAL ACCESSORIES

- Factory installed internal vibration isolation (option VIB).
- Series F200A and F9220A filter sections are insulated and supplied with 1" framed aluminum mesh filters. All filter tracks will accommodate either 1" or 2" filters. Easily removed for servicing through end access panel.
- H9209 to H9218 filtered intake hood sections supplied with 1" aluminum mesh filters. H9220 hood section has a screened inlet for use with F9220A filter section.

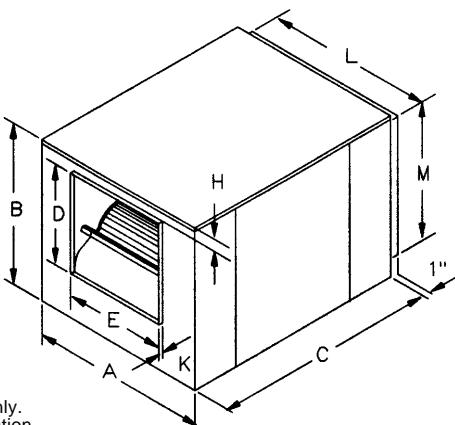

DMS SERIES WITH OPTIONAL INTAKE HOOD

DMS-VIB WITH OPTIONAL INTERNAL VIBRATION ISOLATION

HEATING AND COOLING COILS

CONSTRUCTION FEATURES

- Designed for use with matching Ductmaster™ DM or DMS Series Duct Blower and Filter Section.
- Lead free construction - safe for use with portable water systems
- Attractive Ductmaster™ green baked enamel Cabinet Finish
- Convenient for both New or Renovation Installations
- Aluminum Fin on Copper Tube Construction
- Suitable for Remote Installation in Duct
- All Coils are Factory Leak Tested

SERIES HC HOT WATER HEATING COILS

-2 Row Coil

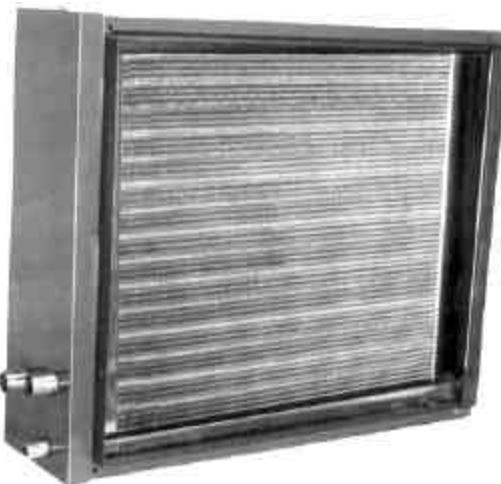

-Horizontal or Vertical Installation

SERIES CW CHILLED WATER COOLING COILS

-4 Row Coil

-Sloped Drain pan for Positive Condensate Removal

**Typical Installation showing Filter Section, Cooling Coil, Heating Coil and Duct Blower
(Duct blower side panel removed for illustrative purposes)**

CW DIMENSIONS (in.)							
MODEL	A	B	N	P	INLET	OUTLET	DRAIN
CW-07	17-3/4	15-3/8	16	13-1/2	5/8	5/8	5/8
CW-09	21	18	19-1/8	16-1/8	7/8	7/8	5/8
CW-10	22-1/2	20	20-3/8	18-1/8	7/8	7/8	5/8
CW-12	27	23	25-1/8	21-1/8	7/8	7/8	5/8
CW-15	33-1/2	28	30-5/8	25-1/8	7/8	7/8	5/8

These are typical drawings for dimensional purposes only. They are correct within limits suitable for normal installation requirements and do not necessarily show actual construction.

TYPICAL SELECTION EXAMPLE

Air Temp. Deg F	Heating Coil Capacity Air Temperature Correction Factor			Useful Formula
	140	160	180	
80	0.86	0.89	0.91	Air Temp. Rise = $\frac{Mbh \times 1000}{Cfm \times 1.08}$
70	1.00	1.00	1.00	Water Temp. Drop = $\frac{Mbh \times 1000}{Gpm \times 500}$
60	1.14	1.11	1.09	
50	1.29	1.22	1.18	

Typical Selection Example

Requirement

An application requires 40 Mbh heating and 26 Mbh of cooling. Hot water temperature is 160 deg F. Chilled water is 45 deg F.

Selection

An HC-09 will provide 42.03 Mbh @ 160 deg F water temp with an air flow of 800 CFM. The matching Cooling Coil, CW-09, needs 900 CFM to deliver the 26 Mbh cooling load which will determine the design CFM. The system SP, excluding the coils and filter section, has been calculated as 0.4 in. Wg based on the 900 CFM.

Static Pressure Estimate

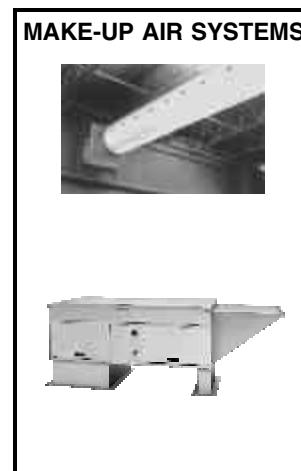

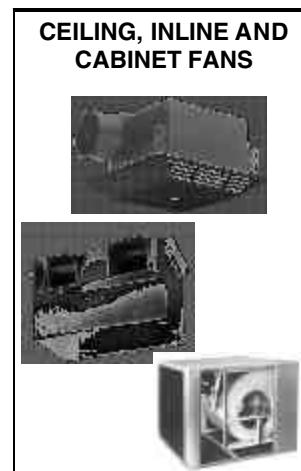

Component	sp - in. Wg
System	0.40
CW-09 Cooling Coil	0.50
HC-09 Heating Coil	0.12
F209A Filter	0.04
Total sp	1.06

Blower Selection

Select Model DM09 or DMS09 duct blower to match HC-09 & CW-09 dimensions

Motor Selection

From DUCTMASTER™ Catalog page 5 for DM or page 11 for DMS performance data, at 900 CFM & 1" SP requires .28 BHP @ 1126 RPM Select a 1/3 BHP motor

LIMITED WARRANTY Acme Engineering and Manufacturing Corporation warrants the products manufactured by Acme to be free from original defects in workmanship and material for two years subject to the terms and conditions of its published limited warranty. Warranties on purchased products are subject to the vendor's warranty. Refer to current Form MS149 for complete limited warranty terms and conditions.

WARNING Acme products are designed and manufactured to provide reliable performance but they are not guaranteed to be 100% free of defects. Even reliable products

will experience occasional failures and this possibility should be recognized by the User. If these products are used in a life support ventilation system where failure could result in loss or injury, the User should provide adequate back-up ventilation, supplementary natural ventilation or failure alarm system, or acknowledge willingness to accept the risk of such loss or injury.

WARNING DO NOT use in HAZARDOUS ENVIRONMENTS where fan's electrical system could provide ignition to combustible or flammable materials unless unit is specifically built for hazardous environments.

CAUTION Guards must be installed when fan is within reach of personnel or within seven (7) feet (2.134 m) of working level or when deemed advisable for safety.

DISCLAIMER The Company has made a diligent effort to list traits and describe the products in this literature accurately; however, such illustrations and descriptions are for the sole purpose of identification, and do not express or imply a warranty that the products are merchantable, or fit for a particular purpose, or that the products will necessarily conform to the illustrations or descriptions or dimensions.
