# **Vestibule Exception**

PAAC-105

### **Electric Heat**

The CHA-E electrically heated air curtain has been tested in accordance with ANSI/AMCA 220 and meets the criteria for use as an exception to the vestibule requirement in Climate Zones 3 and above. It is specifically designed to be dropped into the ceiling above customer entryways where a standard air curtain is not desired. The CHA-E is for customer entryways up to 14 feet high. Comes standard with a decorative white grille. Other colors or metals are available upon request.

## **Key Design Features**

18-gauge galvanized steel case installed above the ceiling.

- Heavy duty 3/4 HP motors. 1630 rpm each.
- High efficiency discharge plenum ensures that air being discharged fills the entire width and height of the opening. This also lowers the operational sound level.
- Directional air foil vane factory set to facilitate deflection of air stream
   +/- 20 degrees.
- Includes control panel.

The white grille is standard with this model. There is an additional charge for other colors or metals.

For openings up to 14 feet high

### **Recommended Controls**

Remote mounted On/Off Switch
Thermostat
Time Delay Relay
Magnetic Door Switch for activation

#### Sound level: 63 dBA

Powered Aire Inc. certifies that the Model CHA-E Electrically Heated Air Curtain shown herein is licensed to bear the AMCA Seal for Air Performance. The ratings shown are based on tests and procedures performed in accordance with AMCA Publication 211 and comply with the requirements of the AMCA Certified Ratings Program.

The AMCA Certified Ratings Seal applies to airflow rate, average outlet velocity, outlet velocity uniformity, velocity projection and power rating at free delivery only. Rated data shown are based on tests of units with heating elements present but not in use.
